

Knowledge & Awareness Training – Oslo Training Event 3 September 2008

09:00	Arrival
09:20	Welcome Introduction to training – Tom Parker (TTR) Overview of Klemetsrud biogas plant (EGE)
09:40	The biomethane pathway – Tom Parker (TTR)
10:00	The biomethane decision – Tom Parker (TTR)
10:30	Coffee break
10:45	The biomethane business model – Tom Parker / Björn Hugosson
11:15	Setting up a Biogas Plant - Carl-Magnus Pettersson (VK)
12:00	Distribution of fuel for vehicles - Roger Andersson (AGA Gas)
12:45	Lunch
13:30	How to co-operate on a regional level for market development of biogas - Bernt Svensén (Biogas Väst)
14:15	Questions and discussion
14:45	Coffee break
15:00	Planning a biomethane implementation scenario - Interactive session - Tom Parker & Björn Hugosson
16:00	Round-up
16:30	Departure

Carl-Magnus Pettersson (VK in Västerås): VK has set up the entire biomethane chain in Västerås and is the plant operator. He will cover plant design, feedstock, upgrading, and refer to organizational issues.

Roger Andersson/ Mr John Melby (AGA Gas): AGA has established the network of filling stations in Stockholm and can explain how a market can be built in the absence of a natural gas grid. He can also give details on distribution solutions. He will also cover the West Sweden model, and the experience of establishing a filling station in Norway.

Bernt Svensén (Biogas Väst): As a project manager within Business Region Gothenburg he has experience of how Biogas Väst promoted a market development of biogas production, including a vehicle market.

Tom Parker (TTR): introduction, overview of biomethane pathway/decision/models and facilitation.

Björn Hugosson (Miljöförvaltningen - Environment and Health Administration Stockholm): facilitation.

Øystein Ihler, EGE (Waste to Energy), City of Oslo – Welcome and overview of plant development.
